Whether you're looking to earn daily, build a powerful network, or climb to elite rewards dxn Token provides the tools to grow wealth in a decentralized future.

VISION

We envision a world where users transition seamlessly from Web2 to Web3 - where the digital experiences they love are elevated by the transparency, security, and sovereignty of blockchain technology. Finexa is designed to serve as this bridge, making the future of the internet accessible, engaging, and empowering for all.

MISSION

building a platform where expression is permanent, data is personal, and community is powerful. DXN is dismantling

the walls of centralized censorship and empowering creators, thinkers, and rebels to unite on an unbreakable, decentralized network.

DXN TOKEN

DXN TOKEN is the process by which new bitcoins created are and transactions on the Bitcoin network are verified. It involves solving complex mathematical problems using powerful computers. The first miner to solve the problem adds a new block of

transactions to the blockchain and receives a reward in the form of newly generated bitcoins and transaction fees.

“Powering the future of decentralized finance, one block at a time.”

DeFi and Its Transformative potential

What is Defi (Decentralized Finance)

DeFi is a system of financial services—like lending, borrowing, and trading—built on blockchain technology, without traditional banks. It uses smart contracts on platforms like

Ethereum to let users interact directly through decentralized apps (dApps).

Key Benefits: No middlemen Open to anyone with internet access Fast, transparent, and global

DeFi aims to create a more open and user-controlled financial system.

SIMPLIFIED...

1

Transactions are grouped into a "block."

2

Transaction and safe 100 %

3

The first miner to solve the puzzle gets to add the block to the blockchain.

4

That miner earns a reward: currently 3.125 BTC per block (after the 2024 halving).

5

The mining cycle repeats about every 10 minutes.
